In 1980, I completed my studies at the Maritime Academy in Gdynia where I obtained the diploma of master degree. From this time, I have been continuously in intensive sea-going employment.

During the first three years, I served as motorman and 4-th Engineer in Polish Ocean Lines.

From 1993, I worked in Polferries rising from 3-rd Engineer to Chief Engineer.

I received my Chief Engineer Certificate after 8 years of work and I have it from 22 years.

In Polferries I served on car and passenger ships. While with Polferries I served on their biggest ship, the MF Scandinavia that had propulsion 28890 bhp and carried 1800 passengers.

In 2001/2002 I served for SAIPEM at offshore multipurpose DP2 ship „Maxita”. Last I worked for Havila Supply as a Chief Engineer on PSV Havila Fortune and next for Boa Offshore on PSV Boa Fortune.

I have very big practice on shipyards on drydocking and also conversions. I have good communication and management skills, I am very ambitious, and I like new challenges. I have very good leadership abilities and can work well while under stress for longer hours have to be put in, as the situation requires. I have high qualification, which can be used, on any offshore vessels. I have good health. I am familiar and trained with ISO 9000 and I have introduced the ISO system at ships and operated it for over 15 years.

I am also familiar and trained with maintenance database systems such as AMOS, Pre Master, STAR IPS and in computer.

I would be only to willing to demonstrate my skills, commitment, management capabilities, leadership and knowledge to an interview or examination panel.

Sincerely

Grzegorz Pietkiewicz
